High performance  
with a wide range of  
solutions and options.

### Product description

The Q1 offers with its modular hardware and software concept numerous possibilities for a wide variety of applications. Printers and displays can be quickly and easily replaced via plug & play. The printer of the Q1 is impressive in terms of its robustness and durability such as due to its resilient metal hinges or the unique linerless cutter technology with an impressive 500,000 cuts without the need to replace any cutting components.

An intuitive GUI in combination with the capacitive touch technology offers your team highest ease of use and improved interaction with your customers. Moreover, Q1 offers a wide range of services based on software components such as inventory, delivery notes, shrink re-weigh and cash register functions. Via the management software, device and sales data can be managed and transparently monitored in the back office.

The ergonomic design of the Q1 is consistently designed for fatigue-free working and operation. The Q1 can be lifted easily and safely by means of lateral handles. Also the very sleek load platter, adjustable displays and the ergonomically positioned printer simplify your team's daily work. The 12" display of the Q1 100 and Q1 800 ensures maximum convenience also in the self-service area.

Q1 800

Q1 800 operator display

Q1 100 with cash drawer

### Highlights

#### Sustainable investment & cost savings

- Always up-to-date with modular, expandable hardware components such as interchangeable displays
- Numerous software components let the Q1 grow with your needs
- Save costs by means of an energy-saving mode with Wake-on-LAN/WLAN\* function
- A smart service concept ensures efficient remote support (e.g. when customizing the GUI) and simplified on-site maintenance work through optimized accessibility of the CPU as well as tool-free printer and display exchange

#### Simplified & saving time

- A modern, user-friendly GUI allows fast working and optimal design of operating processes such as via full-text search or simple use of advertising
- Latest auto cutter technology\* with a long service life of more than 500,000 cuts without having to replace components for cutting
- Optimal product visibility and access in the counter for operators are achieved with an extra flat weighing module
- A lean design ensures an optimal view of the merchandise creating transparency for customers

\*Optional
