High performance  
with a wide range of  
solutions and options.

### Product description

Tray sealer TPC15 is intended for fully automatic tray sealing and packaging with MAP (modified protective atmosphere). The TPC15 is suitable for a wide variety of packaging types and sizes and significantly increases shelf life of food products. A tool-free change of sealing mold and tray denester provides the flexibility needed to respond quickly and easily to changing customer requirements in terms of packaging type and size. Additional molds and tray holders can be simply stored in an optional heatable mold holder trolley, from where they can be easily removed and quickly inserted in the machine as needed. With Bizerba's slicing, inspection and labeling solutions you can combine a compact and fully automatic line solution based on your individual needs.

Tray sealer TPC15

### Highlights

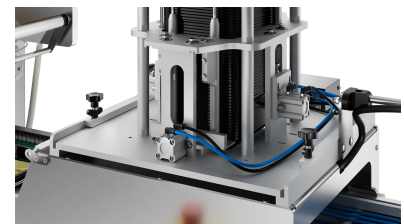

- Integrated fully automatic tray denester
- Easy, tool-free change of sealing mold and tray denester
- Compact design for a space-saving line solution
- 7" color touch screen for easy program selection. Can be operated with gloves
- Optional manual tray feeding for even more flexibility
- A wide variety of designs in terms of conveying direction - suitable for every application

Automatic tray sealing

### Options

- Alternative conveying direction (left to right instead of right to left)
- Extended belt body between tray denester and tray sealer for space to feed trays manually
- Red vacuum pump (from BUSCH)
- Mold for packages with easy-peel corner
- Network connection

Integrated tray denester

### My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
