Data Sheet

iS25

BIZERBA

The compact weighing terminal iS25 offers you a wide range of functions and requires minimal space. Benefit from reliable and precise results even in case of time sensitive applications. Fast data transfer and efficient handling ensure smooth processes. An example: The visual tolerance check with LED traffic light function is only one of many highlights of the easy to integrate iS25.

More information
High performance with a wide range of solutions and options.

Product description

The robust weighing terminal iS25 was specifically designed for simple weighing applications in harsh production environments. Same as all Bizerba weighing terminals it is extremely reliable and meets high hygiene and safety standards. It can handle various applications such as controlling, order-picking, packaging, shipping, documenting and stock-taking. It meets high demands for weighing, counting and tolerance check. The tolerance check integrated by default provides precise results and can be easily operated: Red, yellow and green LED lights indicate your staff the weighing results in a fast and clear manner. Tare values can be easily entered via the numeric keypad. Weighing data is directly and safely transferred to higher-ranking systems via interfaces.

iS25

Highlights

– Selectable weight value units kg, lb and oz
– Large keys with mechanical pressure point and acoustic feedback ensure trouble-free operation, even with gloves
– LED lights as a visual signal during tolerance check
– Efficient cleaning thanks to smooth surfaces and rounded edges
– Integrated applications for efficient weighing and counting processes or for tolerance control
– Fast data recording and control
– 4 inputs / 4 outputs
– WLAN interface for process data and service

iS25 with stand and iL Economy 300F/SP

Options

iS25 with tolerance check

– Battery pack with charger and battery holder
– Individual mounting: Table, wall, counter top, stand
– Combinable with different load receptors
– Metrologically approved data storage
– Variable lengths of data, control and measuring cables
– Column
– Interfaces: Profibus DP, WLAN, analog output
– Ethernet

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
