High performance
with a wide range of
solutions and options.

Product description

CWEmaxx can be customized, is a robust, reliable and flexible checkweigher made of high quality stainless steel. Tailor-made solutions to suit the tasks. Control your production process, ensure quality, increase efficiency and save time and money with the CWEmaxx. Easy operation, data management and software solutions make your production process transparent. Our all-round service stands out in terms of a custom-tailored range of services including integration consulting with individually designed maintenance concepts and the design of customer-specific solutions. This checkweigher is particularly suited for manufacturers of frozen products, ready-made meals, meat and sausage/cold-cut products, dairy products, non-food products as well as for metrologically approved weighing in accordance with prepack regulations FPV.
